

Dear Valued Customer:

West Pacific Medical Laboratory, based in Santa Fe Springs, CA is pleased to announce the completion of a definitive merger with Internist Laboratory, dba VantagePoint Laboratory Partners, a San Diego based provider of Wellness and Oncology focused testing services to patients, physicians and health care facilities throughout the United States.

This partnership is rooted in a shared focus on patient care first and outstanding customer service. Cross-laboratory collaboration will enable the most comprehensive patient care and client service will be enhanced. New services will become available, and your sales representative will keep you apprised.

Key elements of this partnership:

- In-network status with MOST major insurance carriers
- Advanced Cardiovascular Disease testing program focused on Wellness
- Access to a community based team of sub-specialty boarded pathologists
- Esoteric and oncology-based testing in a CAP accredited laboratory

Our community-focused delivery of laboratory services to physicians and patients will continue. Both laboratories will operate in their respective locations. Most importantly, the same laboratory professionals you have come to know and respect in each organization will maintain their support.

As we continue to serve you, with great change in the healthcare industry comes tremendous opportunity. Laboratories offering a wide range of clinical and esoteric services and technology to seamlessly integrate into practice management and electronic medical record systems are primed for growth.

Together we honor our mutual commitment to providing high-quality health care and value our relationship. We look forward to continuing to provide laboratory-testing services to you and your patients for many years to come.

Respectfully,

A handwritten signature in black ink that reads 'David Morgan II'.

David Morgan, CEO
